EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Porter on 13 September 2005.

The application has been amended as follows:

IN THE SPECIFICATION:

In the Abstract, line 1, change "18A" to --A--.

IN THE CLAIMS:

Claim 19, line 9, after "base", insert --and free of a connection to said first movable section--.

Claim 19, line 11, delete "bristles" and insert --said teeth cleaning elements--.

2. The following is an examiner's statement of reasons for allowance:

Claims 1-18 are allowable over the Prior Art since the Prior Art fails to adequately teach or suggest all of the limitations of claim 1, particularly, the second section being displaced from said first section and hingedly connected to the head at a first end opposite the first section and otherwise free of a connection with a remainder of said head, said second section remaining static when said first section moves and no other external forces are applied to said second section.

Claim 19 is allowable over the Prior Art since the Prior Art fails to adequately teach or suggest all of the limitations of claim 19, particularly, a first end including a flexible support hinge that connects said second movable section to said base, a second end free of a connection to said base and free of a connection to said first movable section, said second end being located on a handle side of said first movable section.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The above changes were made to amend claim 19 to define over the reference to Blaustein 2003/0084525, specifically, the embodiment of Figs. 14 and 15, which fails to adequately teach the above recited subject matter of claims 1 and 19 as set forth in the reasons for allowance. A minor typo was also corrected on line 1 of the Abstract.

4. Any inquiry concerning this communication or earlier communication from the Examiner should be directed to Randall Chin whose telephone number is (571) 272-1270. The Examiner can normally be reached on Monday through Thursday and every other Friday.
